

Format fini

The diagram illustrates a page layout with three distinct regions. The outermost region is a dark teal border representing the bleed area, labeled 'Fonds perdu (5 mm)'. Inside this is a yellow border representing the minimum margin, labeled 'Marges mini (5 mm)'. The central white area is the final format, labeled 'Format fini'. A thin red line is visible at the very edge of the page, likely representing the final trim line.

Marges mini (5 mm)
